Letter of introduction

THE KINGDOM OF
SAUDI ARABIA

Joining forces to strengthen competitiveness

Firms that join forces are the foundations of innovation, especially high-tech design and construction related companies, which are frequently at the vanguard of pioneering research and technology.

The group coordination is a cooperative effort among various entities with different specialities to assure coherence in achieving common objectives and ensuring areas of need to focus the efforts and increase the success ratio by far.

PLADCO's principal mission is to orchestrate the collaborative efforts of its international team to support market growth in the Kingdom of Saudi Arabia. Codinachs Network main role is establishing strategic partnerships between PLADCO and proficient contractors and specialist consultants for their forthcoming projects in Saudi Arabia.

Our approach

PASSIONATE

Passion is the fuel that keeps us going. Perseverance and hard work is our key predictor of success.

SYNERGIES

Introducing the cluster cooperation system, we cut time to handover thanks to the team synergies and integration which led to joint success and better results.

International Consultancy

WITH LOCAL APPROACH

COORDINATED METHODOLOGY

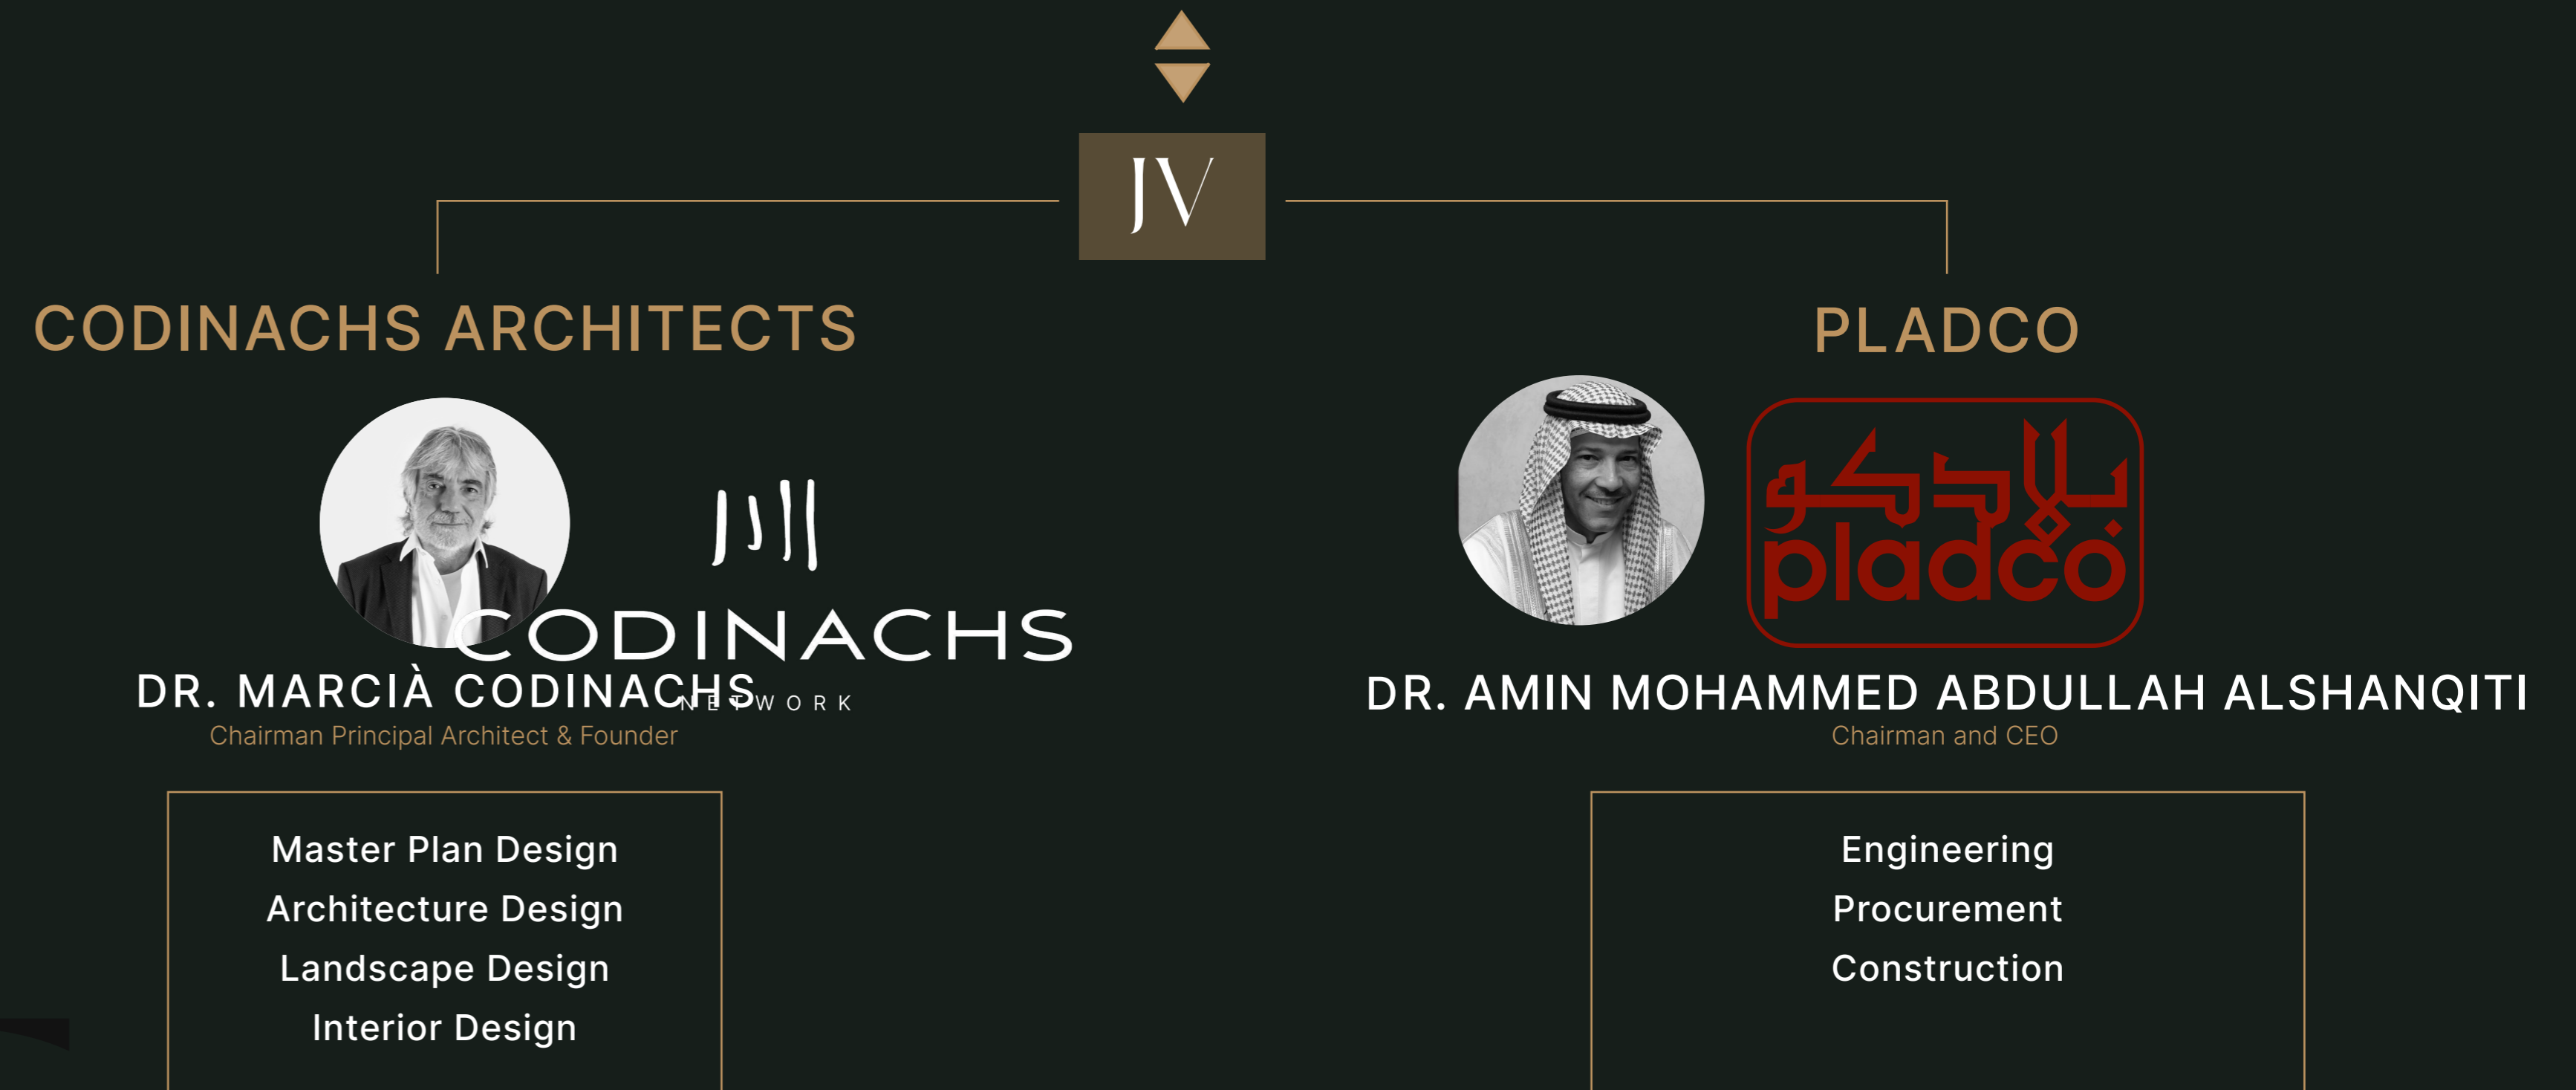

The main advantage of implementing a coordinated work methodology is that it brings together the expertise and insight of each entity, in an attempt to establish a strategic approach for the coming years.

EFFICIENCY

The aim of our development strategy is to strengthen competitiveness of services by enhancing productivity of the related companies and organizations selected in the group.
